T-MAX

**MAX
SERIES**

State of the art technology.

What you experience on a McCormick tractor is an exceptional feeling of control. It means our technology does its job well. Our T-MAX series encapsulates this perfect blend of high power and intelligent solutions to meet the needs of both present and future farming. This tractor range marks a breakthrough for ergonomics, maximum comfort and all-round visibility. It serves as a testament to the notion that you don't have to be famous to build tractors that offer the ultimate in technology.

MCCORMICK

5

X5

X SERIES

Tribute to excellence.

At McCormick, research and development are high performance, just like our X5 series. This range sports the unmistakable modern and aggressive styling of McCormick's latest generation models, which is designed to give the tractors a powerful and compact look. Its outstanding features and performance make it the perfect choice for medium-scale farms who tend to be cautious when it comes to making new investments in their equipment fleet. The X5 series knows how to stand out.

D-MAX

**MAX
SERIES**

Built to last.

McCormick has designed and developed the D-MAX series with an ambitious goal: to create a tractor range that adapts to the farming world's increasingly pressing need for equipment that offers heavy, rugged, simple, proven operation with less electronics. Combining dependable technologies and robust build quality, these straightforward tractors boost productivity, save fuel and reduce emissions. You won't find a more reliable tractor range that stands the test of time.

X8

X SERIES

Be at the top.

Power is our obsession. That is why we design tractors that hug the ground and exploit every last ounce of power. Continuous technological innovation, ongoing commitment and the constant pursuit for quality has led to the design and development of the X8 series. This range of tractors have received a more contemporary and aggressive look, with a high-grade fit and finish that will not go unnoticed. The McCormick X8 sets the benchmark for global performance and worldwide power.

McCormick works in partnership with **Topcon** to provide our customers with the latest in guidance and auto-steer systems.

Our X8 range is ordered in steer ready.

All agricultural support materials are available on the **myTopcon NOW!** support app.
