WHO WE ARE

McCormick offers a range of tractors from 60 to 310 horsepower. Each are at the top of their class in terms of technology, comfort and safety. With all the strengths of its American origins, McCormick has positioned itself as the brand of reference for high-performing products, which are able to meet the most advanced global performance expectations.

SPARE PARTS

Our mission is to protect the tractors we produce and your business. McCormick Original spare parts allow us to guarantee high quality standards, efficiency and long-term performance, to safeguard the work of our customers. When you buy Original Spare Parts, you also benefit from a 12-month guarantee on your purchase.

SERVICE & SUPPORT

Servicing your McCormick tractor ensures that your machine retains its high performance and utmost reliability over time. Thanks to our skilled and professional team, we understand your needs to protect your business. McCormick takes service to the next level with our team of workshop and mobile technicians, and warranty and technical support experts.

X5M SERIES

CABIN

Richer in features with a more European design. That's the new McCormick X5M tractor series. Particular care has been put into the design, starting with the hood, which takes on a more modern look. The new and more captivating design has maintained its compact size, but offers improved operator all-round visibility and comfort with its total view slim cabin. This range offers various configurations of transmissions.

F SERIES

SPECIALTY

The F series is the new specialist tractor that combines McCormick's hallmark, power and technology, with versatility and lightness for manoeuvring in tight spaces. This makes it the ideal tractor for all row-crop operations in the narrow spaces found in orchards and vineyards. It is capable of handling a variety of implements with ease and of coping with almost any terrain and crop.
